YOUR TRUSTED MEP PARTNER

Established in 2023, we at JJ MEP Services LLP are proud to be a rapidly growing Nashik-based MEP solutions company delivering reliable and efficient services across PAN India. With our core expertise in Plumbing, Electrical, Firefighting & HVAC Solutions, we focus on providing technically sound, practical, and client-centric MEP designs tailored to every project's unique requirements.

Over the years, we have successfully contributed to 100+ projects across sectors such as Residential, Commercial, Hospitals, Industrial & Horizontal Developments. At JJ MEP, we strongly believe in maintaining the highest standards of Quality, Safety & Innovation while ensuring seamless integration of MEP systems with architectural and structural planning for sustainable and efficient project execution.

KEY HIGHLIGHTS

Established in **2023**

Successfully Delivered **100+ Projects**

Expertise in **Plumbing, Electrical, Firefighting & HVAC Solutions**

Providing Services **Across PAN India**

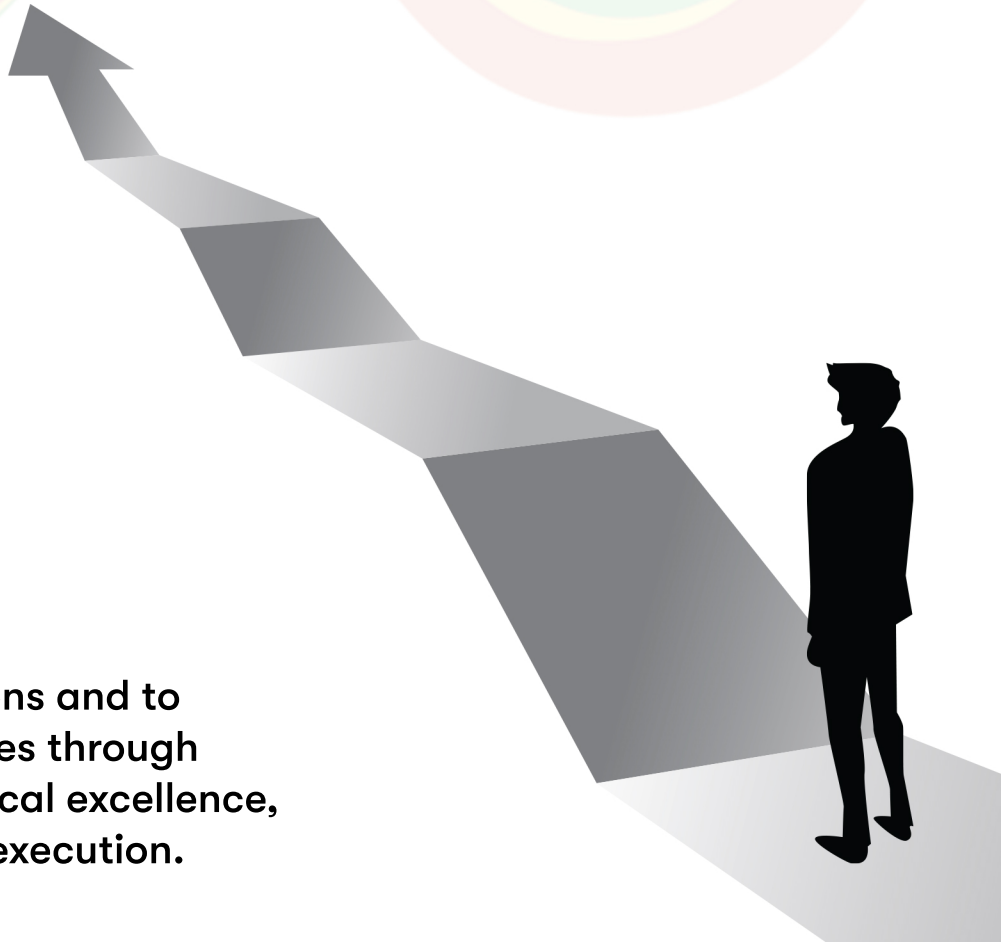
Serving **Residential, Commercial, Horizontal Development, Hospital & Industrial Sectors**

Committed to **Quality, Safety & Innovative Engineering Solutions**

VISION THAT INSPIRES,
MISSION THAT DELIVERS

VISION

To redefine modern infrastructure with innovative, smart, sustainable, and future-ready MEP solutions.



MISSION

To exceed client expectations and to deliver efficient MEP services through quality engineering, technical excellence, safety, and timely project execution.

OUR CORE SERVICES

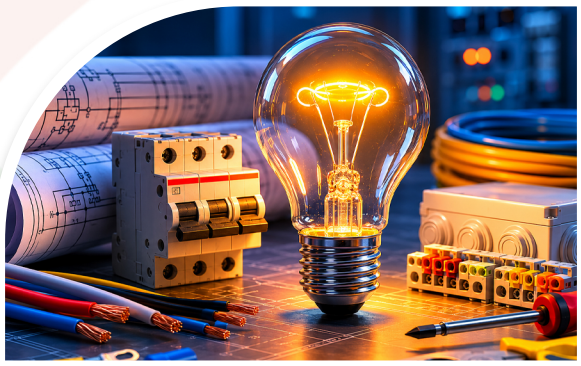
At JJ MEP Services LLP, we deliver complete and reliable MEP solutions designed to meet modern infrastructure requirements. **With expertise in Plumbing, Electrical, Firefighting & HVAC Systems,** we ensure efficient planning, seamless execution, and quality-driven engineering solutions for residential, commercial, industrial, and institutional projects across India.

1

PLUMBING ENGINEERING SOLUTIONS

Comprehensive Plumbing Engineering Solutions including Water Supply, Drainage, Storm Water, Rainwater Harvesting, Pumping Systems, Irrigation, and Water Treatment Management for modern infrastructure projects.

2



ELECTRICAL ENGINEERING SOLUTIONS

Reliable Electrical Engineering Solutions including Power Distribution, Lighting, Backup Power, Earthing, ELV, Structured Cabling, and Communication Systems for safe and efficient infrastructure development.

3

FIRE FIGHTING SYSTEM SOLUTIONS

Advanced Fire Fighting Solutions including Hydrant, Sprinkler, Alarm, Detection, and Fire Suppression Systems designed for maximum safety and regulatory compliance.

4

HVAC ENGINEERING SOLUTIONS

Efficient HVAC Solutions including Air Conditioning, Ventilation, Exhaust, Ducting, and Air Distribution Systems designed for comfort, energy efficiency, and optimized building performance.

WHY WE STAND APART

Technical Expertise
Strong capabilities in Plumbing, Electrical, Firefighting & HVAC solutions for diverse project requirements.

End-to-End MEP Solutions
From planning and design to execution support, we deliver complete and reliable MEP services.

Seamless Coordination
Efficient collaboration with architects, consultants & structural teams for smooth project execution.

Commitment to Quality
Focused on delivering technically sound, durable, and high-performance engineering solutions.

Safety & Compliance
Strict adherence to industry standards, safety norms, and modern engineering practices.

Timely Project Delivery
Well-planned workflows and efficient management ensure on-time project completion.

Innovative Engineering Approach
Use of modern technologies and smart engineering methods for optimized results.

PAN India Service Network
Successfully serving clients across residential, commercial, hospital & industrial sectors throughout India.

Client-Centric Approach
Customized solutions tailored to project requirements with transparent communication and support.

Trusted by Growing Clients
Long-term relationships and repeat projects reflect our reliability and service excellence.

LEADERSHIP
THAT DRIVES EXCELLENCE

Founder | Electrical Engineer
Experience: 10+ Years
Core Expertise: Electrical & ELV Systems

An experienced Electrical Engineer specializing in Electrical and ELV systems for healthcare, residential, commercial, and industrial projects. Recognized for her practical engineering approach, seamless coordination, and focus on safe, efficient, and high-performance MEP solutions.

Er. Dipali Kasar

Founder | Civil Engineer
Experience: 10+ Years
Core Expertise: Plumbing & Firefighting Systems

A seasoned Civil Engineer with extensive experience in delivering efficient Plumbing and Firefighting solutions for residential, commercial, and institutional projects. Known for her technical precision, project management skills, and commitment to quality-driven engineering solutions.
